## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-19 are allowed.

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance:

The prior arts of record to Pocock, Swenson and Garfinkle fails to either alone or combine to teach or suggest an interactive information distribution system utilizing an open session to provide the request information, wherein the feature of determining a use time associated with a request title from the user is performed at a network management system, as well as opening a session with the user's set top box and monitoring the user's use time associate with the requested title at a session control manager of the network management system; and "use time" herein refers to the total amount of allowed time for the user to physically view a request title or program, which is different than the "viewing time" because the user is able to view as many times as he/she prefers as long as the time does not exceed the predetermined allowance of "use time".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Klosterman and Sartain (PTO-892 attached) disclose interactive TV systems.
